BALTECO

Over thirty years ago, a small group of talented and ambitious engineers united to establish Balteco. Their shared aspiration was to create practical and timeless bath designs that would transcend the trends. Today, Balteco has grown into one of Northern Europe's leading manufacturers of exclusive bathtubs, recognized for its unwavering commitment to quality and design.

Introducing the Xonyx solid surface bath collection 2023 - an exclusive selection of freestanding bathtubs that reflect Balteco's passion for innovative and elegant design. Each bathtub is handcrafted using the finest materials, ensuring a luxurious and durable product. Join us in experiencing the unmatched quality and sophistication of Balteco's Xonyx collection.

TEAM IS EVERYTHING BECAUSE PEOPLE ARE EVERYTHING

ALINA MISAKIAN
CEO
Balteco USA

What does a bright, ambitious woman do with her burning desire to support her long-standing family business* in Ukraine? She joins Balteco, knowing that her commitment, analytical skills and flair for luxury design would allow her to grow this deep-rooted company in a new market. With her unwavering focus and vision, Alina introduces and establishing a strong presence for Balteco in the United States.

EXQUISITE NORDIC DESIGN

Radically simple and exceptionally enjoyable.

A design statement made possible by intricate engineering and passion for timeless design.

SMART DESIGN, **INNOVATIVE CONSTRUCTION**

The innovative construction of Xonyx solid surface freestanding bathtubs employs dual wall architecture with tub's inner and outer walls seamlessly integrated to create a durable monolithic bathtub. Dual wall construction allows for contoured ergonomic inner surfaces and elegant external design lines. The space in between the two walls acts as an effective thermal insulator, reducing heat loss and keeping bath water warm longer.

XONYX™
SOLID SURFACE

Xonyx bathtub comes with a sturdy galvanized steel bottom frame with adjustable feet that are completely hidden from a view. This novel construction offers extra space under the bath for a hidden drain connection assuring easy installation without the need for bathroom floor reconstruction.

INSTALLATION MADE EASY

Beauty meets practicality.

UNIQUE PERFECTED **TECHNOLOGY**

Xonyx solid surface is a superb material perfected through an implementation of an innovative Slow Polymerization System (SPS) production technology. SPS production technology brings out the best performance characteristics of this remarkable solid surface material.

NORDIC
DESIGN
BATHS

SILKY-SMOOTH SURFACE

Xonyx solid surface bathtub is machined to provide an extraordinary silky-smooth surface with a satin impression, making the material warm and pleasing to the touch while retaining its easy-to-clean properties.

Simply irresistible to touch.

EXCLUSIVE XONYX WASTE

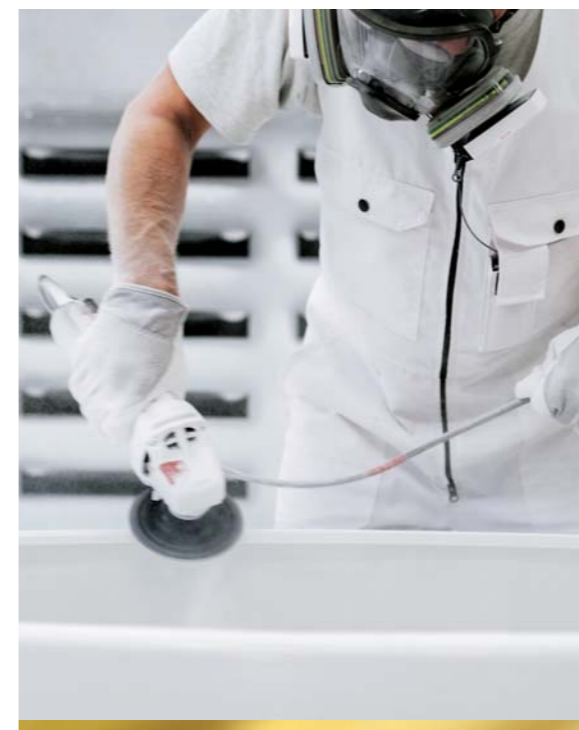

It's soft white it's Xonyx – blending with the bathtub's finish, Xonyx waste plugs are an almost invisible yet elegant detail. All-soft white satin surface Xonyx bathtubs allow matching with tap mixers, bathroom accessories or decor of any finish.

DELICATE YET EFFECTIVE

The discreet integrated overflows on Xonyx solid surface bathtubs are spectacularly neat yet intelligently engineered. The overflow system, with just a small minimalist machined slot and hidden custom-designed piping, delivers overflow rates that exceed plumbing requirements.

No protrusions, no external pipes.
Simply beautiful.

METICULOUSLY HAND-CRAFTED

Xonyx solid surface bathtubs are handmade to honour the value of traditional Scandinavian craftsmanship and deliver exceptional quality. Aspiring for perfection, every bathtub is carefully hand-crafted by experienced masters with no detail being overlooked from casting to thorough final inspection.

Dedication is the key to achieving perfection.

ANY COLOUR YOU LOVE

Offering full freedom in bathroom decoration, Xonyx solid surface bathtubs are available in any bathtub exterior colour finish imaginable – the full RAL colour pallet range is available.

PREMIUM QUALITY APPROVED

All baths are manufactured to the highest quality standard and UPC certified.

DESIGN IS INTELLIGENCE MADE VISIBLE

■ ALINA KESTER

Creative Director
Liven, Premium Real Estate Development

Wide selection of exterior colour options of Xonyx baths allow for full freedom in bathroom decor. Our customers have welcomed plentiful colour options and although the latest trend in interior decoration suggests milder and calmer tones, even black bathtub exterior has been quite popular. In addition to world-class design, high quality of Balteco Xonyx baths has made it an easy choice.

■ JANNELI KURVITS

Interior Designer
Braavodisain

As a professional I value in interior decoration products with great design, but also high level of technical aspects and well-engineered functionality. In addition to outstanding design Balteco Xonyx baths are the most bather friendly, ergonomic and easy to clean.

■ LILIA KRISTIANSON

Interior Architect
LK Design

In designing luxurious homes I have used Balteco Xonyx baths many times, and all of my customers have loved it. It is probably not a surprise that my private bathing oasis includes Balteco Malene, which is the best bath I have ever owned – its unique silky smooth surface is irresistible.

■ KATE FURSA & DINA TILK

Interior Architects
KaDi Element

We have just recently found Balteco catalogue exclusive line of baths to match our clients demand for stylish contemporary design with needed functionality and superb bathing comfort.
